

Rittners School of Floral Design

Rittners School Of Floral Design In Boston Presents...

Fun With Flowers From Israel: A Gallery Guide

Hi, Welcome to The Rittners School of Floral Design in Boston.

It is a pleasure to welcome you to our Gallery Guide to “**Fun With Flowers From Israel.**”

This online exhibit, was produced by **Rittners Floral School in Boston** with the cooperation of **Blooms of Beloit Beloit WI.** who are importing and provided these wonderful flowers from Israel.....

About Blooming of Beloit

Blooming of Beloit, in Beloit, WI is an **outstanding** specialty cut flower farm. It is a year round supplier of blooming trees, shrubs, ornamental berries, twigs, and perennial flowers and bulbs. With 94 acres and around 60,000 plants, Blooming of Beloit enjoys a central location

around 75 miles from O'Hare Airport. Blooming of Beloit also works with select growers to import flowers from international sources. In this gallery you get to enjoy some of their wonderful imports from Israel.

Some of The Flower Imports from Israel:

The flowers and foliage used in this gallery that were imported from Israel include xanadu, variegated pittosporum, lisianthus, green bell, ranunculus, kochia, green trick dianthus, hypericum berries sunflowers, larkspur and delphinium.

(While some of these materials may also be available from other parts of the globe we especially enjoyed using these Israeli imports from **Blooming of Beloit.**)

Some of The Israeli Flowers Used

| | |
|-------------------------------|-----------|
| Delphinium | 8 |
| Green Bell | 9 |
| Green Trick Dianthus | 10 |
| Hypericum | 11 |
| Kochia | 12 |
| Lisianthus | 13 |
| Ornithogalum Dubium | 14 |
| Ranunculus | 15 |
| Sunflower | 16 |
| Variegated Pittosporum | 17 |
| Xanadu | 18 |

Delphinium

One of our favorite linear flowers.

Delphinium is a bold striking flower. It is characterized by both its linear shape and its gorgeous blue color.....

Green Bell

Also known as pennycress. This flower is a filler material, meaning that it has tiny florets (eg. like babysbreath or statice). It is wispy. It is linear. It adds personality to any design that it graces.

Green Trick Dianthus

This has become one of our favorite flowers! This flower has a very distinctive texture and actually feels "bushy!" It is a dianthus making it a relative to the carnation. But this definitely isn't Dad's carnation! This one can be used for all kinds of designing, from classical to bleeding edge. It is also a very, very long keeping flower, and holds up well in water or foam.

Hypericum

One of our favorite berries!

Berries always add new life and dimension to floral art.

Hypericum is one that we enjoy using, for it is available in various colors. It is relatively easy to get. It is also fun to work with.

Kochia

This stuff is incredible..... A striking silver/white foliage that works well with just about anything.... It can be used in designing ranging from holiday designing to everyday florals. Kochia can actually help to enhance any flowers that are mixed with it!

Lisianthus

Lisianthus is one of those flowers that make any arrangement feel more natural and exciting. It is available in a range of colors, from white/ivory, to pink to even blues and lavenders. It holds up well. It should definitely be a part of every floral designer's repertoire of floral materials....

Ornithogalum Dubium

Ornithogalum is one of those flowers that looks great whether it is tight or more open. The ornithogalum that we have used in this gallery are yellow and orange.

We have used them here and there in our designing to provide a very bright and cheerful counterpoint to other floral materials.

It is a very hardy flower. Some stems of ornithogalum lasted weeks after our photo shoot.

Ranunculus

Ranunculus is one of our favorite flowers because it is so bright and colorful. Looking for something that will add visual punch and pizzazz? You will find it with these flowers.

Sunflower

The most optimistic flower we know of. They are a wonderful flower to greet you first thing in the morning as they practically radiate happiness! Sunflowers are enjoying renewed popularity. It's easy to see why!

Variegated Pittosporum

Variegated pittosporum has been a favorite foliage for many generations of floral artists.

It covers mechanics quickly and easily.

I love the cream color that is found on the tips of the leaves.....

It gives a very distinctive character to floral designing ranging from bouquets, to vase arrangements and more.....

Xanadu

Isn't this a great foliage?

Xanadu is a foliage that is wonderful to use to define shape and form of floral art.

It is structural and architectural and helps to define space. It is large, but not huge! We love this foliage.

ARE YOU STILL READING THIS GUIDE?

You should Instead:

1. Be checking out the online gallery at <http://www.floralschool.com/Israeli1.htm>
2. Be buying some great flowers from **Blooming of Beloit, in Beloit WI.**
3. Be looking into taking a great course in floral designing at **Rittners Floral School in Boston, MA!**

We thank you for reading this brief guidebook and for checking out our online gallery!
