

# The Rittners Floral School Difference...

345 Marlborough St  
Boston, MA  
Tel: 617-267-3824  
[www.floralschool.com](http://www.floralschool.com)

**Our Six Month Day Course, 12 Week Evening Course  
And Concentrated Day Courses start simply but  
include intermediate and advanced skills.**

Rittners Floral School... Well thought out and planned programs for differing schedules.....

NOT a complicated or confusing sequence of courses that make you come back constantly for more and more floral design training.

**We believe that when you spend money on a floral art course you deserve a program that is awesome and amazing....**

# You take home every floral design that you make

Your course is a hands-on program meaning that following the lecture/ demonstration instruction you are actually designing with flowers and materials.

Once you've made an arrangement for a class, **we do not take your design from you to recycle** into other designs.

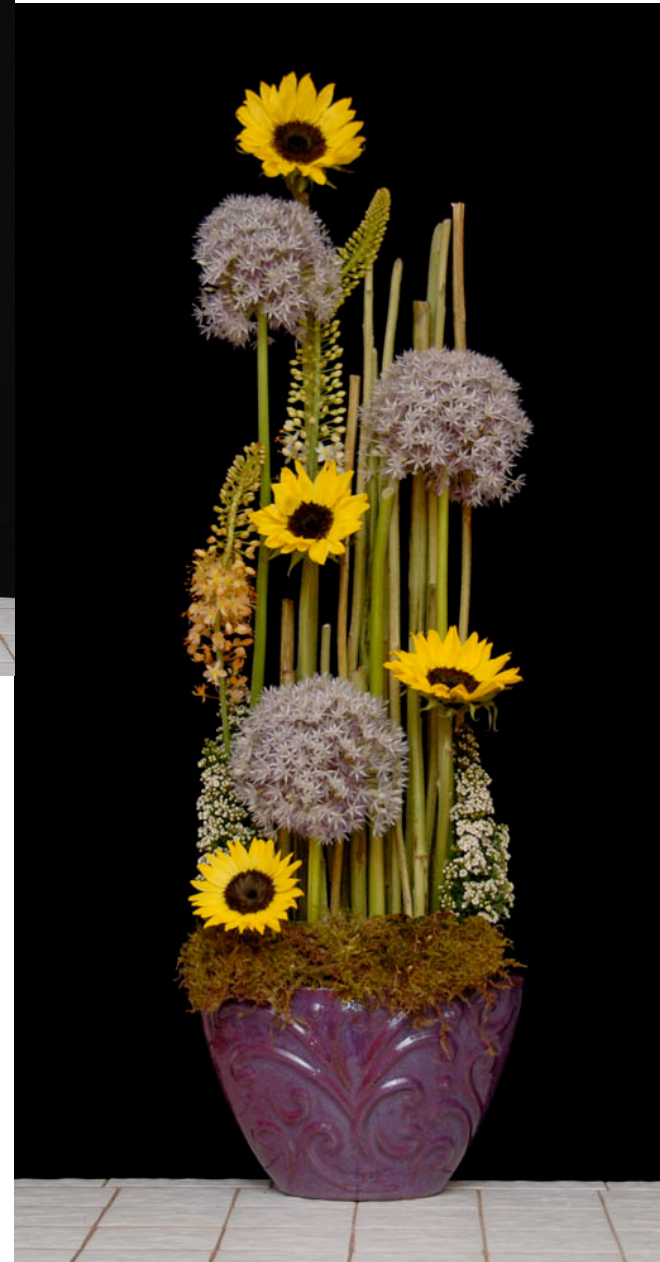

We feel that it's important that **you take home each and every floral design that you make in a lesson--not just a few flowers at the end of a design session.**

It gives you self confidence as folks admire the pretty things you make.

Taking home every floral design you make gives you the value that you deserve....

**Learn a lot, have a great time and then earn bragging rights as you bring every floral design that you make for a lesson home---- each and every lesson!**

The owner of the school is actively teaching in every program offered.

Hi there. I am Dr. Steve Rittner and I am a 3rd generation floral designer with both a Masters and Doctorate in teaching. **I love teaching floral designing**, and at Rittners, I am actively involved in the daily teaching of each and every course. I feel it's important that the **boss be there with you every step of the way!**

I believe that if you have the boss as one of your instructors you will get the kind of value that you are entitled to.....

I am very accessible to my students before a course, during a course and after a program is completed....

**We use state-of-the-art technologies in our teaching....**

**At Rittners you benefit from the use of state-of-the-art educational technology that complements our live instruction. We use digital media, photography and video, wireless internet and all the latest bells and whistles in our teaching.**

**Teaching floral design is our passion, not something done in between other business interests.....**

**Teaching Floral Art is what we do.  
It's our primary business.**

Our whole philosophy at Rittners is that **learning floral designing should be quick, easy and fun.**

We have the teaching skills, the floral background, the staff and facilities **to help you learn floral art and have a great time!**

The ultimate compliment from our graduates:  
**“It’s school, but it doesn’t feel like  
school..... It’s really fun!”**

**We would love to talk with you!**
