A Guide To Rittners Floral School YouTube Videos

Hi, Welcome to **The Rittners School of Floral Design** in Boston, Ma.

It is a pleasure to present “**A Guide To Rittners Floral School YouTube Videos.**”

Our school has been in existence for close to 70 years. Our curriculum is very different than it was in the 1940s. Floral designing constantly changes, evolves and moves forward... We are proud that our programs at Rittners constantly evolve to reflect the commercial, the artistic and the merger of both...

Why this e book?

Just as floral styles change and evolve, **so too does the media that we use to present instructional information.**

Our school has always played on the edge in terms of the use of educational informational media. From books, audio recording, slides and video tapes of past decades to ebooks, digital photography and videography of the present, we love to play with the latest “toys” that help us present information about floral art.

YouTube is a wonderful way to disseminate information about floral art styles, approaches and technique. We are proud that our school has produced over 100 videos are available free on YouTube to anyone throughout the world. But the sheer volume of videos that we have produced has made it challenging to find videos on given subjects. **The purpose of this ebook is to help organize our videos by topic, so that you the viewer may more easily find things you may enjoy viewing.**

Our YouTube Videos do not cover the exact content of our diploma courses. (We are generous but not foolish). Our hands-on workshop courses provide greater context and **far more detailed instruction.** These videos **do** give a very good sense of modern floral designing. They will inspire you and you will learn a lot of floral designing.... but they are not a substitute for our courses.

So do keep in mind that if you enjoy these videos that you will learn even more from one of our hands-on diploma programs.

On behalf of all of us on the teaching staff here at Rittners Floral School, we hope that you enjoy our modest efforts.

*Dr. Stephen Rittner
Rittners Floral School,
Boston, Ma.*

Subjects in YouTube Videos

These subjects are subjective, but reflect some major headings under which you may find lots of wonderful resources.

Note that some videos fit quite nicely in more than one category.

The number of videos in any category should not be interpreted as a value judgement (none are more important than others etc.) It simply reflects the make up of videos in our current Youtube collection. More of these free resources are being added all the time!

Here are the major headings.

Look under each of these for the names of the specific videos.

Click the name of the video to get the link to a particular page on our website featuring that video!

Christmas

Christmas

One of the largest holidays of the year. This holiday is amazing. We could do Christmas designing for four months and still not exhaust the possibilities. Anything made for “Winter” will also work well in this context.

Rittners Floral School

Rittners Floral School is one of the longest running programs in the country and draws students from all over the continent and abroad. We are proud of the excellence of our programs, of our facilities and of our students. We are located in one of the nicest residential sections of Boston. Here are a few videos relating to our school and our unique location.

[At Rittners Floral School the Future is Now](#)

Tel: 617-267-3824**

The graphic features a 2x2 grid of floral arrangements in glass vases, each set against a different solid background color: top-left is yellow, top-right is red, bottom-left is purple, and bottom-right is blue. The flowers are primarily red and yellow.

Simple Arrangements

Simple Arrangements

At Rittners Floral School our entire philosophy is based on making learning floral art quick, easy and fun. While we hope that approach shows in all of our presentations, here are a few videos that we feel particularly express that approach well:

Rittners Floral School Distance Education.....

Rittners Floral School Distance Education.....

What You Will Need

- Glass container, 1 round glass bowl
- Clarity medium
- Paper berries
- 1/2" x 4" white foam
- 1/2" x 4" white mesh
- Water

Let's get to the why get by... We usually start with the container...

I am often asked how big the round container should be. The reason is that it is quite open and... The larger the bowl, the more flowers it will accommodate.

You will find a good glassware store near you. They carry lots of different sizes.

Any round bowl will do. The one I used here is 1/2" x 4" and is made of clear glass. It is a good size for a round floral arrangement.

We have been receiving many requests from all over the world for some form of distance floral design online education. Well, We hear you!! This incredible resource is for you!

Digital floral design instruction, available in ebook pdf format, inexpensively priced, and profusely illustrated.....Best described as lots and lots of step-by-step photographs and how-to make-it instructions that are easy to download....and easy to understand....on both Windows and Mac computers...Over seventy-five lessons now available featuring over one hundred floral designs.....Step-by-step, world class floral art instruction. Inexpensive. Enjoyable. Available to you at any time of day or night at the click of a button! (After you pay for them of course!)

Paper Berries

Don't start with it!

I don't know about you, but I love the visual effect of reds, yellows and oranges... The advantage of the paper berries is that you get a good deal of color and texture, but it is totally artificial.

Beyond the visual, the paper berries provide structural support.

Take a handful of paper berries and place it in the middle of your container.

If possible, use some form of artificial flowers or a spray of real flowers may place them.

It's the continuation of the line. The early winter combination in the paper berries will make placing any type of real floral much easier and more vibrant. (That's the secret! Please look for it again!)

Why pdfs and not videos? Very simply because you can use these like floral design cookbooks. Open them up on your computer or tablet and follow them easily step by step.

From here on, it's really easy to make this design.

Place your flowers in the center of the paper berries. Place them to the edge of the glass container. Place them in a line.

<http://www.floralschool.com/Distanceeducationstartpage.htm>

Rittners Floral School Workshop Courses.....

Rittners Floral School Workshop Courses.....

“Our videos are intended to give a sense of what modern floral design is all about... But our hands-on workshop diploma programs are amazing, fun programs that will give you money making skills and wonderful memories!”

Our floral art course line up is deliberately kept simple and non confusing. We offer:

Six Month Day Course

This is every day Mon-Fri from mid Sept to mid March from 9-3:00. (with vacations of course!) Our most comprehensive program. Designing every day and how to make money from floral art!

12.5 Week Evening Course

Tues and Thurs Evenings, from 7-10. Offered in Oct and again in Jan. Detailed floral design instruction. Buying flowers, conditioning techniques & pricing. Amazing course for those busy during the day who need a strong part time program.

Short Day Course

Awesome program! Offered in April, June and July/Aug. Same content as the 12.5 Week Evening Course presented in a day format. For those who need to learn a lot in a short period of time.

And yes we occasionally offer very short duration workshops for those seeking that kind of experience...

<http://www.floralschool.com>
