

A Few Personal Comments About Our Four Week Evening Course from Dr. Steve Rittner

Whenever I talk about any course that we offer, I **usually will comment that it is awesome** (or words to that effect!) **But I really mean it.** I am proud of each and every one of the courses that we offer here at Rittners Floral School, as I am the folks who take them! All of our courses are carefully designed for very specific consumer needs (not staff's egos). In fact, some students have told me that one reason they are attracted to our school is that they can see that orientation.

Our Short Four Week Evening Course is a good example of that. We offer it starting June 6. It is designed specifically for folks who have asked us for a floral art course that features hands-on professional floral design content, yet is part time, at night, very short duration, and is as reasonably priced as possible.

This program meets that criteria. **In fact, to our knowledge it is the most reasonably priced program of its kind in the region.**

There are many ways this course may benefit you:

It is at night making it an **easy course to attend** if you have job commitments or other obligations during the daytime.

It is **short**, which **appeals to complex work and lifestyle schedules.**

It is very **reasonably priced** which **appeals to the pocketbook.....**

It lets you get out, **have fun** and **meet some new people** and **learn practical floral designing skills....**

You get to enjoy the great teaching that our school is known for!

If you want to take a professional level course, and get the basics quickly and easily you can't beat this one!
