

## Everyday Design:

What is an “Everyday Design?” Quite simply it is the use of flowers in an arrangement that could grace the table, be placed on a coffee table, or side table in a living room, or perhaps go on a bureau in a bedroom. It is an arrangement that, under the right circumstances, with the proper colors, symbolism, etc. could be featured as a holiday arrangement. But most likely it is an average sized arrangement that we can enjoy for everyday use. Easy to live with. Nothing huge. Nothing tiny. Nothing weird. Usually traditional. Just something we can enjoy to have around us as we go about our daily lives..... These kinds of designs are commonly made by floral designers in large numbers for their customers. They are fun and easy to make and quite pretty to behold. We think you’ll have fun making some of these too!
