

Seasonal--Spring

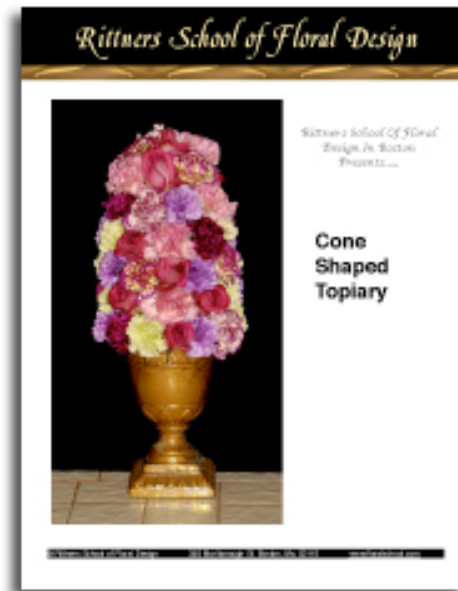

I love the cycle of the seasons. Each season is accompanied by changes in climate, wonderful holidays, and the associated colors, symbolism and floral materials,..... At Rittners Floral School in Boston we especially look forward to our Six Month Day Program that starts in the fall and ends in the spring, for it allows our students to master a wide range of seasonal floral art ideas and motifs.....Always great fun!

During spring, in the Northeast, it starts getting warm again, and nature revives.... The beautiful area in which our school is located is blessed with hundreds of gorgeous gardens each with their own unique personality..... Naturally our distance education offerings that you can buy and enjoy at any time at home, also celebrate spring!
