

Seasonal--Winter

I love the cycle of the seasons. Each season is accompanied by changes in climate, wonderful holidays, and the associated colors, symbolism and floral materials,..... At Rittners Floral School in Boston we especially look forward to our Six Month Day Program that starts in the fall and ends in the spring, for it allows students in that program to master a wide range of seasonal floral art ideas and motifs.....Always great fun!

In particular the bleak, cold and often depressing winter climate outdoors make floral expressions that add color, warmth and joy, all that more meaningful. Winter includes both Christmas and Valentine's Day. Rather than mixing both together here, we've put Valentine's Day expressions under both the categories of "Romance" and "Roses."

- 009PPV Classic Xmas Boxwood & Roses
- 011PPV Contemporary Winter Water Designs
- 014PPV Elegant Holly Arrangements
